Fifth Wheels

You've Already Arrived.

Ever-Green Recreational Vehicles

Bay Hill Fifth Wheel. Luxurious Style Meets Affordability.

Our Bay Hill fifth wheels are an exceptional combination of stylish, residential comfort and affordability. Bring all the amenities of home on the road in your Bay Hill, from crown moldings and Corian® countertops to practical storage solutions. High-end features make the Bay Hill a "Best in Class" value, without a luxury price tag.

Seven unique floorplans, all with designer finishes, allow you to choose the experience that is right for you. Couples who enjoy entertaining will find the rear kitchen model perfect for preparing elegant meals in upscale style. Have a large family? You'll love the bunkhouse model, with plenty of room for all your guests.

Whether you're looking for a fifth wheel for full-time use or simply weekend getaways, the Bay Hill offers beautifully appointed interiors with all the quality construction of an EverGreen.

310RE

Feel at home in your 80-inch king-sized bed, shown here in the 310RE with Madison Brown decor, outfitted with a Black Label mattress for the ultimate in comfort on the road.

340RK

The 340RK is equipped with a beautiful bronze range hood and, like all Bay Hill kitchens, features residential style cabinetry, Corian counters, a gooseneck faucet and stainless steel appliances for the perfect blend of function and high-end style.

We designed Bay Hill as a "Best in Class" value. You'll always feel at home on the road.

Upscale style and signature touches.

Life on the road has never been more luxurious. An arched interior ceiling opens the space for a true residential feel. Living areas have padded Beauflor vinyl flooring and plush carpet for the ultimate in comfort. Never feel cramped in a bathroom again — the Bay Hill features a 48-inch residential, sit-down shower with sliding glass doors and a large skylight. Overhead cabinetry and large closets in the master bedroom add plenty of storage space for full time use. Washer and dryer hook-ups are essential for a residential experience.

Built for the best years of your life.

Constructed with "The EverGreen Difference", the Bay Hill is a quality coach inside and out. Aluminum walls and framing around all doors, windows and baggage door openings provide greater strength and durability, extending the life of your Bay Hill. Laminated walls fully insulate the coach, keeping you cooler in the summer and warmer in the winter.

Unique floorplans for every fifth wheeler.

Finding the Bay Hill floorplan to suit your needs and style is easy with various unique models to choose from. Whether it's the Rear Kitchen, Bunkhouse or Front Lounge, there is a Bay Hill for your family.

A half wall of storage cabinets in the 379FL acts as a partition between the well-appointed center kitchen area and the step up lounge.

The bath of the 379FL features a 48-inch residential, sit-down shower with sliding glass doors and a large skylight overhead. Full-sized commode and sink fixtures round out this true residential bath.

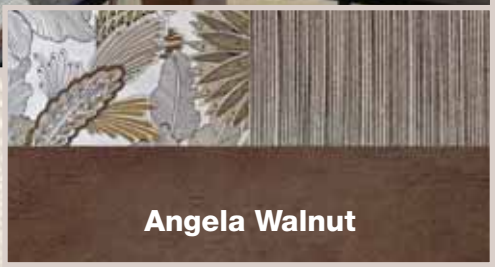

379FL

Bay Hill Interior Color Selections

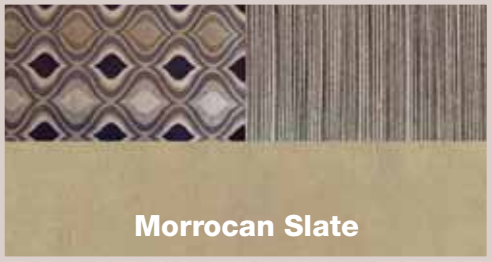

Angela Walnut

Morrocan Slate

Madison Brown

No one builds fifth wheels like EverGreen.

Take the time to compare because there is an "EverGreen Difference." Since we first revolutionized the RV industry with the first all composite travel trailer, we've been busy focusing on the innovation front with new manufacturing and material specifications to build a better trailer for your family.

Construction Features

Walls

1. Gel coated fiberglass exterior
2. Fully welded aluminum frame
3. High-density, block foam insulation
4. Frameless windows
5. Slam latch baggage doors
6. Exterior speakers

Floor

10. Six-point auto-leveling system
11. Steel I-beam frame
12. Fully welded aluminum frame
13. Tough, temperature resistant Beauflor linoleum

Roof

7. Walk on, crowned roof
8. 15K fully ducted A/C
9. Painted gel coat fiberglass cap

DURALITE
DOUBLE WELDED ALUMINUM STRUCTURE

Aluminum Framing

Bay Hill is built with aluminum framing around all doors, windows and baggage door openings. This strong, durable framing creates a sturdier coach and is superior to construction used in conventional fifth wheels.

Di-Flex Roofing

A Di-Flex TPO Roof makes recreational vehicles quieter by eliminating roof rumble and noise from wind, rain and hail. It assures a watertight roof that is maintenance free and saves energy through its heat reflecting characteristics.

Level Up™ Automatic Leveling System

A standard feature on Bay Hill, the Level Up™ six-point automatic leveling system levels the coach in less than a minute, using a one-touch auto-leveling feature. Level Up comes with an auto re-hitch memory function that remembers the exact height at which the coach was unhitched. Since Level Up has six points of contact on the ground, your coach remains more stable throughout your camping experience.

Check out Bay Hill's Features and Benefits

√ Aluminum frame provides greater strength and durability and resists water damage

√ Lamination process provides a fully insulated, temperature controlled unit

√ The fiberglass front cap with full gel coat paint protects it from rock damage

√ Ducted, heated enclosed underbelly protects the water tanks, water lines and electrical lines

√ The arched ceiling provides an additional four and a half inches of headroom in the bedroom

√ Get the residential quality of Beauflor vinyl flooring, padded for your comfort

√ Charge multiple devices at the charging station with USB/12 volt/110 volt capacity

√ High-end Martha Stewart Collection Corian ® countertops are sleek and residential

√ Hand made wave cabinets with designer glass inlay add a unique touch

√ Storage is designed for full-time use creating a truly residential space

√ Stylish and residential, crown ceiling moldings are a high-end finish

√ Four point gear-driven slide system moves smoothly and seals tight and square

√ The pullout tray is easy access to triple 20 pound LP tanks for longer trips

√ Six-point auto-leveling feature is standard, leveling an RV in under a minute
